Moncer Chtioui

Web Developer

I am a recent graduate in computer engineering with deep expertise in web development. I am passionate about challenges and eager to contribute to innovative projects. I am looking to join a dynamic technology team where I can bring my creativity and teamwork spirit.

WORK EXPERIENCE

Web Developer | Feb 2023 – July 2023, Sousse

DOT-IT, internship (end of studies project)

- Development of a Web application for sports field reservations with real-time booking using the Symfony and React stack.
- Integration of a secure and reliable payment system (Konnect).
- Design and implementation of a user-friendly interface (UI/UX), significantly improving the user experience.
- Optimization of the database schema design to enhance system efficiency and performance.

Graphic Designer | Jan 2022 – Jan 2023, Sousse

ADSCOM Solutions, full-time

- Imagination and creation of the client's brand identity.
- Development of strategic digital content for social media.
- Deployment of advertising campaigns on digital platforms.

Web Developer | Feb 2020 – July 2020, Monastir

Carthage Solutions, internship (end of studies project)

- Development and implementation of a management platform for a medical tourism agency using the MVC model.
- Active contribution to the software development lifecycle, from analysis to testing.
- Implementation and monitoring of key statistics for platform users.

Web Developer | Jan 2019 – Feb 2023, Monastir

Bazar, internship

- Development of a static website using the WordPress CMS.
- Integration of various plugins to add functionalities such as contact forms, online booking, and Google Maps.

EDUCATION
